EDUCATION

SRM Institute of Science and Technology, Chennai 2022 – 2026

Bachelor of Technology in Computer Science and Engineering (AI & ML) CGPA: 8.71 / 10

Relevant Coursework: Machine Learning, Deep Learning, Data Structures & Algorithms, Database Management Systems, Computer Vision, Natural Language Processing, Probability & Statistics, Operating Systems

TECHNICAL SKILLS

Languages:	Python, SQL, C++, Java
ML / DL:	Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Keras, PyTorch
Libraries:	Pandas, NumPy, OpenCV, Matplotlib, Seaborn
Tools & Platforms:	Git/GitHub, Jupyter Notebook, Docker, Flask, Streamlit, MySQL, Linux
Concepts:	Supervised & Unsupervised Learning, CNNs, NLP, Model Deployment, REST APIs

PROJECTS

Real-Time Face Mask Detection System | Python, OpenCV, TensorFlow, Keras

Personal Project | Jan 2025 – Mar 2025

- Built a CNN-based classifier using TensorFlow/Keras to detect face masks in real time from webcam video, achieving 96.4% validation accuracy on a dataset of 8,000+ labeled images.
- Used OpenCV for face detection (Haar cascades) and frame preprocessing, and deployed the pipeline with Flask for a live browser-based demo.
- Optimized inference speed to 28 FPS on CPU by applying model quantization and frame-skipping logic.

Student Performance Prediction & Analytics Dashboard | Python, Scikit-learn, Pandas, SQL, Streamlit

Academic Project | Aug 2024 – Nov 2024

- Developed a machine learning pipeline using Scikit-learn (Random Forest, Logistic Regression, XGBoost) to predict final-semester student grades from attendance, assignment, and test-score data.
- Cleaned and engineered features from a 5,000-row MySQL dataset using Pandas and NumPy, improving model R-squared from 0.61 to 0.83 after feature selection.
- Built an interactive Streamlit dashboard for faculty to visualize at-risk students and cohort-wide trends.

CERTIFICATIONS

- Machine Learning Specialization – DeepLearning.AI & Stanford Online (Coursera), 2024
- Deep Learning with TensorFlow – NVIDIA Deep Learning Institute, 2024
- SQL for Data Science – University of California, Davis (Coursera), 2023
- Python for Data Science and AI – IBM (Coursera), 2023

ACHIEVEMENTS

- Winner – Smart India Hackathon (Institute Level), 2025, for an AI-based crop disease detection prototype.
- 2nd Runner-Up – SRM AI/ML Hackathon 2024 (team of 4) for the Student Performance Analytics project.
- Published a technical blog on CNN architectures for image classification (Medium, 1,200+ reads).
- Core Member, SRM Artificial Intelligence Society – conducted a workshop on OpenCV for 60+ juniors.
